

## Delayed release by reason that tax computation for 2006 has to be done

2007/07/26

Unfortunately I have been received message from tax authorities, that I have to return my computed tax until 26. of july 2007 (no deferral possibile). Thus and in fact that I am not prepared of this, and had to sort alle my document, I was not able to keep release date. I apologize for this inconvenience and I will try to release version 0.0.3 whitin one week start today.
